Election/Restrictions

Applicant's election without traverse of claims 1-17,38-65 is acknowledged.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest a thermal cyclor comprising a processing unit having an opening to receive a sample vessel containing a sample, the processing unit having a first processing station and a second processing station, where each station includes a compression member and a thermal energy transfer element; nor a thermal cycling method using the device. WO 03/007677 does not constitute prior art. USP 5,985,651 has a multiple of processing units, each of which only have a single processing station. The same can be said for USP 5,089,233. The remaining USP references cited by the examiner are generally related to the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.

Art Unit: 1744

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Warden can be reached on 571-272-1281. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
